About

Innovative Software Engineer with a proven track record of architecting and scaling high-impact digital products from the ground up. I specialize in bridging the gap between cutting-edge machine learning research and production-ready systems, transitioning from deterministic programming to building complex, probabilistic AI environments. My expertise spans developing robust backend infrastructures with Python (Flask/FastAPI), crafting high-performance mobile experiences using React Native (Expo), and designing scalable cloud-native architectures on GCP.

Education

IU International University of Applied Sciences

Bachelor's Degree in Computer Science, Germany (Graduated: 2025)

Strong foundational knowledge in data structures, algorithms, and software architecture principles.

Professional Experience

Transdigital — Software Engineer

Jun 2025 – Present | Maputo, Mozambique

- Architect and maintain scalable backend systems using **Flask**, focusing on secure authentication, messaging, and document workflows for legal-tech platforms.
- Build **AI-powered Retrieval-Augmented Generation (RAG)** pipelines using **Google Vertex AI**, enabling intelligent answers from legal gazettes and user-uploaded documents.
- Design and deploy **cloud-native, event-driven architectures** with **Cloud Run, Cloud Scheduler, and GCS** for asynchronous processing and real-time AI responses.

- Implement secure file ingestion and document indexing pipelines integrated with AI systems.
 - Automate **CI/CD with GitHub Actions**, deploying containerized microservices to Google Cloud with proper secret and environment management.
 - Contribute to AI-assisted decision-making systems serving **legal and government-oriented clients** in African markets.
-

BoleiaChain – Mobile Application Developer

Jun 2024 – Nov 2024 | Maputo, Mozambique

- Developed high-performance **React Native** mobile applications with a strong focus on scalability and maintainability.
- Integrated **AI-driven features** that increased user engagement by **~20%**.
- Delivered stable releases with **98% test coverage**, supporting rapid iteration and reliable feature rollouts.
- Collaborated closely with product and design to improve UX and performance.

Transdigital, Lda – Software Developer

May 2023 – Feb 2024 | Maputo, Mozambique

- Built and deployed **AI-based chatbot solutions** for **5 enterprise clients**, achieving **98% model accuracy** and **95% client satisfaction**.
- Optimized ML models, reducing error rates by **~50%** through continuous training and tuning.
- Led integration of a **recommendation system**, improving client productivity by **~25%**.
- Delivered cloud-based AI deployments with high reliability and client retention.
- Resolved production issues with a **90% first-time resolution rate**, minimizing downtime.

Upgrade Consultorias, Lda – Frontend Developer

Apr 2022 – Mar 2023 | Maputo, Mozambique

- Built responsive and accessible web interfaces, achieving **100% mobile compatibility**.

- Improved frontend performance, reducing page load times by ~25% through optimized code and UI practices.
 - Worked closely with backend teams to deliver end-to-end features.
-

Technical Skills

Languages:

TypeScript, JavaScript, Python, Java, SQL

Core Mobile & Web Stack:

React Native (Production Experience), ReactJS, Next.js, NodeJS, PostgreSQL, REST/GraphQL APIs, UI/UX Principles

Backend & AI:

Flask, Django, FastAPI, NestJS (Self-Taught/Familiarity), Chatbot Development, Recommendation Systems, NLP, Model Optimization

Tools & Platforms:

Git, GitHub, CI/CD with GitHub Actions, TDD, AI-Assisted Development Workflows (Proven ability to adopt new tools like Cursor IDE), GCP, AWS (basic exposure), MLOps fundamentals, Prisma (ORM - Self-Taught/Familiarity)

Portfolio & Experience Proof

GitHub and **LinkedIn** profiles are available for portfolio review, demonstrating proven experience shipping production code.

Additional Information

Languages: English (Fluent), Portuguese (Native)

Portfolio: [LinkedIn](#), [Github](#)
